

THE AFFORDABLE
ALL-IN-ONE
TECHNOLOGY

ALL-IN-ONE

TUTTO QUELLO CHE SOGNAVI IN UN CENTRO DI LAVORO, MA NON HAI MAI OSATO CHIEDERE

FREE

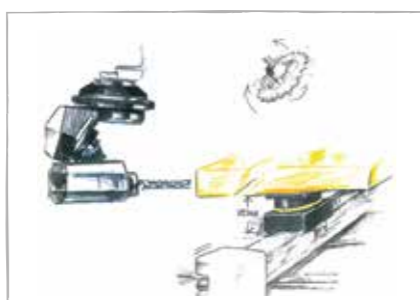

Optimizing the space within your factory thanks to the PROSPACE solution.

360° accessible and ergonomic, no obstacles around the machine: all the components are internal to the base.

Total safety and freedom to load large panels (as wide as 2210mm) due to the work table being entirely uncovered from all working units.

TOP QUALITY

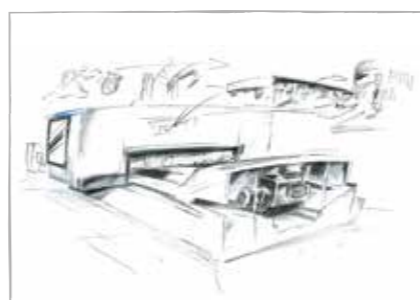

Unique to the market: up to 4 types of units to fit different working groups.

Unrivalled finishing with new JQX (Just Quality eXtreme) 5-axis electrospindle with direct drive.

Reduced maintenance thanks to the RO.AX (Rotoaxial spindle technology) drilling bits, it is recommended only after more than 1000 hours of work.

FASTER

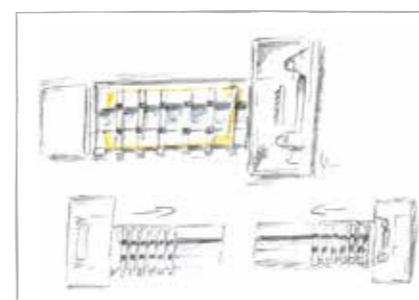

60% of time saved on drilling cycles with the new bits designed to guarantee the best effectiveness on any type of material.

Beyond imagination, up to 60 tools always available on board make the machine the best in its class.

Less than 15" for the tool change with the 14 position FAST tool changer fitted directly on the mobile unit.

FLEXIBLE

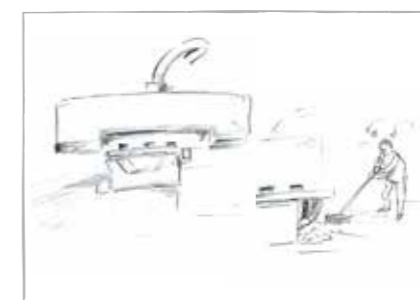

The machine can cope with all types of materials: from wood to plastic, from the panel to the single component, from a kitchen door to a window, **the configured solution for all your needs** and your investment plan.

Zero idle times for set-up operations and no compromise for the machine performance with the **versatility** and free **configurability** of the TV FLEXMATIC work table.

No limit for the work piece machining with thickness from 180 and 250mm on 75mm vacuum pods.

CLEAN

No problem with dust or shavings with the intelligent solution of the dust collection box located in an ergonomic position.

Free space on the ground thanks to the vacuum pump integrated in the machine base.

READY

1 technician, 1 day and the machine is up and running!

M 100

THE AFFORDABLE ALL-IN-ONE TECHNOLOGY

- **Total flexibility** with an operating unit configurability unique to the market.
- **Unrivalled finishing** with new **JQX** (Just Quality eXtreme) 5-axis electrospindle with direct drive.
- **60% of time saved** on drilling cycles with the new bits designed to guarantee the best effectiveness on any type of material.
- **Reduced maintenance** thanks to **RO.AX** (Rotoaxial spindle technology) drilling bits, it is recommended only after more than 1000 hours of work.

9 All at your fingertips thanks to the **TECPAD** 7" colour remote control with touch-screen.

10 Free access, cable-holder chain enclosed within the machine frame.

11

2

5 100% of the working area covered by all the units of the operating group.

6 Very high flexibility with the multi-function work table made of extruded aluminium, extremely stiff, designed to maintain a perfect planarity over time, even after repeated mechanical stresses; it is ideal also for nesting machining.

3 Free space on the ground thanks to the vacuum pump integrated in the machine base.

12

M2000

THE AFFORDABLE ALL-IN-ONE TECHNOLOGY

12
Wide availability of tools thanks to the TRC rear chain tool changer with 32 positions.

11
Rapid working cycles with the 14 position FAST tool changer fitted directly on the mobile unit.

2
TRB tool changer with 14 positions

9

8

Intuitiveness and easyness with the APPS included in the Maestro software for the production of doors, stairs, furniture and furnishing elements.

10

7

Integrated electrical cabinet with air conditioner.

5

6

Zero idle times for set-up operations and no compromise for the machine performance with the versatility and free configurability of the TV FLEXMATIC work table.

3

No problem with dust or shavings with the intelligent solution of the dust collection box located in an ergonomic position.
